EMERGENCY EX PARTE MOTION TO AUTHORIZE WITHDRAWAL FROM IRA

TO THE HONORABLE JUDGE OF SAID COURT:

Respondent, **Jason McKemie**, appearing pro se and **not by choice**, respectfully files this **Emergency Motion to Authorize Withdrawal from IRA** and would show the Court as follows:

1. NARROW RELIEF REQUESTED:

Respondent requests immediate authorization to **withdraw \$6,500 from his IRA** (Ameriprise account) to prevent imminent repossession of his vehicle, reinstate car insurance, avoid utility shutoffs at the marital residence, and purchase essential prescriptions.

2. COMMUNITY PROPERTY:

The parties were married **September 23, 2023**. Under Texas Family Code §3.003, all property acquired during the marriage is **presumed to be community property**, including the IRA titled in Respondent's name.

3. IMMEDIATE AND IRREPARABLE: HARM:

The requested withdrawal **represents \$6,500 out of approximately \$495,000 in retirement assets (<1.5%)**. Without this relief today, Respondent faces repossession of his only transportation, disconnection of utilities, and interruption of critical medications. These are urgent survival needs that cannot be deferred even one day further.

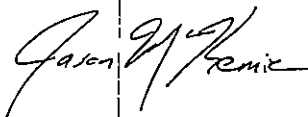

4. SCOPE OF REQUEST:

This withdrawal is narrowly tailored, limited to contributions originally deposited into the IRA, and **will not diminish or prejudice the remaining retirement assets of either party**. Respondent seeks only the minimum necessary to prevent immediate irreparable harm, with the withdrawal structured to avoid penalties and ensure no adverse impact to Petitioner or the marital estate. This request addresses only today's urgent need, with broader issues of record integrity, financial conduct, and due process reserved for subsequent filings.

5. **PRAYER:** WHEREFORE, Respondent respectfully prays that this Court:

- Immediately authorize withdrawal of \$6,500 from Respondent's IRA at Ameriprise for the limited purposes stated herein;
 - Grant such other and further relief to which Respondent may be justly entitled.
-

Respectfully submitted,

Jason McKemie

NEED FOR WITHDRAWAL

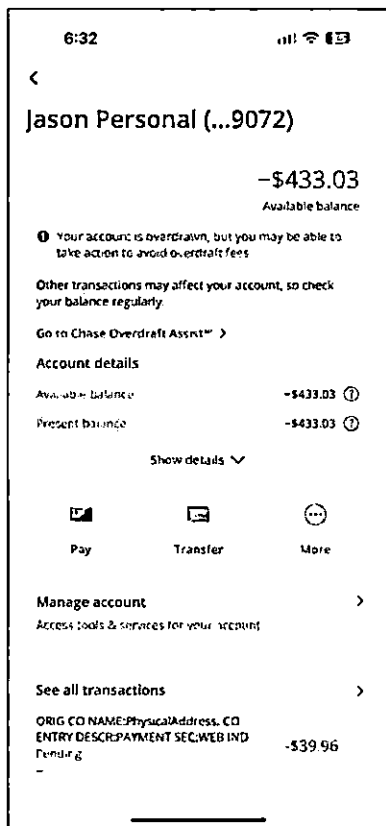

BANK ACCOUNTS: OVERDRAWN CREDIT LINES/CARD: EXHAUSTED

By December, virtually all of Respondent's available credit had been exhausted following a sustained five-month period during which Petitioner shifted marital debts onto him while **feigning financial hardship – the exact same misrepresentation she now advances before this Court.** In that same period, Petitioner siphoned approximately **\$700,000 in community property** into concealed accounts, diverted substantial assets beyond reach, and engaged in financial maneuvers calculated to distort the appearance of the marital estate. These maneuvers included making disproportionate overpayments toward credit card accounts and channeling income into equity investments through payroll deductions. The effect – and apparent design – of these actions was to create a **false appearance of diminished liquidity**, contrived to support subsequent claims of destitution and indigence.

Respondent's Reservation of Rights & Disclosure:

PRO SE NOT BY CHOICE (PROCEDURAL IDENTITY THEFT DISCLAIMER)

Petitioner did not merely file first — she intercepted Respondent's filing by fraudulently reversing his attorney retainer the day after his spinal surgery, she severed his access to counsel and funds. She withheld the retainer reinstatement until Friday to block re-engagement, then had attorneys work through the weekend to file first with a fabricated protective order — a calculated seizure of Petitioner status to construct a false narrative of abuse and victimhood, consistent with her documented legal history of doing so across multiple institutions.

Respondent was left destitute, forced to sell plasma for medication. Over the prior 4 months, Petitioner had funneled hundreds of thousands into hidden accounts and buried him in marital debt through emotional manipulation under the pretense of a "short term cash crunch". In reality, large volumes of cash were flowing in yet she informed Respondent they were at risk of bouncing utility payments, encouraging him to get another credit card or to put groceries on 6mo payment plans. SAPD referred her to the Mental Health Division after the fourth Air Tag she turned in — just as the prior 3 — was registered solely to her iCloud, effectively killing the "stalking" narrative. Despite 25 Motions, 5 Emergency Motions, 22 Ex Parte Judicial Requests for Relief, a Judge Recusal, over nine months... no court has ruled on the perjury, aggravated perjury, fraud, asset concealment, witness tampering,—or corrected the false "six-month marriage" narrative that was weaponized to deny Respondent spousal support, legal fees, and due process.

Truth is an absolute defense to defamation.

—NOTICE TO THE COURT AND RECORD—

This document is submitted with a standing constitutional and procedural reservation of rights. Respondent has previously notified this Court in writing of un rebutted allegations of discovery abuse, evidentiary suppression, financial coercion, and litigation misconduct—all of which remain unrul ed upon at the time of this filing.

Any entry of decree, final ruling, or trial-based judgment prior to formal rulings on these motions constitutes a willful denial of due process under both the Texas Constitution and the 14th Amendment to the U.S. Constitution.

This reservation is hereby entered into the permanent record and incorporated by reference into all prior and future filings, without waiver.

"THE RIGHT TO DUE PROCESS WITHOUT ACCESS OR ENFORCEMENT IS AN ILLUSION OF JUSTICE—NOT JUSTICE ITSELF.

This notice also preserves Respondent's right to seek redress under 42 U.S.C. §1983 or there applicable remedies if fundamental rights violations are not corrected.

Trial May Not Proceed Until Outstanding Motions Are Ruled On

Trial WOULD CONSTITUTE A PROCEDURAL FAILURE IF COMMENCED PRIOR TO THE Court's ruling on all pending motions, including those relating to discovery violations, financial concealment, and procedural fraud. Proceeding without resolving these matters would not only violate due process but would also allow the foundation of trial to rest on un rebutted falsehoods and unresolved evidentiary conflicts.

Respondent respectfully requests that the Court confirm, on the record, that no trial setting or final ruling will occur until all outstanding motions have been fully adjudicated.
