Hey Theresa,

Hope you're well. A **EMERGENCY MOTION TO PRESERVE EVIDENCE** was e-filed through eFileTexas on or about **July 16 2025**. The filing was accepted and appeared in the e-file log, but it no longer appears on the docket. eFileTexas support confirmed that the submission was received by the Dallas County system and that any removal would have occurred "on the court side."

Would you please confirm whether the motion is still in the case file or advise me of the proper procedure to have it restored or re-entered?

Thank you for your help.
